iGlucose® Essential

Cellular-Connected Blood Glucose Monitoring System

QUALITY 100% GUARANTEE

A Simple and Reliable Glucose Monitoring System to Aid Diabetes Management

Why iGlucose® Essential

iGlucose® Essential provides a patient friendly, easy-to-use device that delivers real-time information to both providers and patients.

- Ergonomically designed for patient comfort and simplicity, with a lightweight feel and an easy testing process that will enhance patient adherence for regular readings
- Large on-screen display for easy viewing and understanding of results
- One-button operation to take a reading, with a no-worry automatic shut off after use
- On-screen alerts at time of reading for High or Low (Ketone or Hypo) measurements that provide immediate insights for action

A solution that aids patients and providers in understanding the needs to treat a chronic condition in real-time. This easy-to-use device increases patient adherence to testing, resulting in improved diabetes care.

Features

- Fast 5-Second Testing

Why Smart Meter is the No. 1 Supplier of Data and Devices for RPM

The Only Trusted Private Data Network for RPM in the U.S.

- Smart Meter's Private Data Network for RPM is an exclusive ecosystem with robust security layers protecting patient-generated health data from our proprietary monitoring devices to our Smart*Partners*™ platforms.

Cellular is Better Than Bluetooth®

- Patients have problems using Bluetooth – it's that simple.

- Our proprietary cellular-enabled devices deliver the most patient-friendly experience available supporting more frequent testing, additional revenue, an improved volume of health data facilitating care management, and higher customer and patient satisfaction.

70% of people have trouble sending health data with BlueTooth® devices.

Everything Working Seamlessly in the Background

- We simplify the deployment and management of remote patient monitoring so you can focus on transforming healthcare.

- Smart*Partners* have exclusive access to curated monitoring devices, real-time RPM data stacks, shipping and logistics management, automated refills, and success training services.

POWERED BY
AT&T
